10th INTERNATIONAL SEARCH AND RESCUE CONFERENCE & EXHIBITION

9th-11th SEPTEMBER, 2024

Introduction

In the face of increasingly complex and frequent disasters and emergencies worldwide, the 10th International Search and Rescue (ISAR) Conference and Exhibition is proud to present its theme: “Global Resilience: Uniting Technology and Humanity for Safer Communities.” This year’s conference will explore the dynamic interplay between cutting-edge technology and the indomitable human spirit in the context of search and rescue operations.

Technology & Teamwork to

Conference Highlights

Organized by:

Global Perspectives

Engage with experts and practitioners from around the world who are at the forefront of search and rescue efforts. Gain insights into global challenges and solutions.

Resilience Through Technology

Explore the innovative technologies driving advancements in search and rescue, including drones, artificial intelligence, geospatial analysis, and communication systems.

Human-Centered Approach

Celebrate the bravery, dedication, and heroism of search and rescue teams. Learn about the psychological and physical challenges they face and how to support their well-being.

Community Empowerment

Understand the importance of community involvement in building resilience. Discover best practices for community engagement and disaster preparedness.
